Profile

Current Organization: Freelance Web Developer at Mithila IT (March 2024 - present), where I utilize my **React** skills to deliver high-quality web applications, working closely with clients to understand their requirements and providing tailored solutions.

As a detail-oriented Associate UI Developer, I bring 2.5 years of expertise in developing visually appealing and high-performing web applications. Proficient in **HTML, CSS, Bootstrap, JavaScript, React, Chakra UI, Tailwind CSS, and Ant Design**. Familiar with backend technologies like PHP (CodeIgniter/Laravel) and Appgyver. Skilled in using VS Code, IntelliJ, GitLab, GitHub, and Figma. Previously worked at Exalogic Consulting, Bangalore, as part of the UI Team, contributing to diverse projects.
